	Note: Race and the racial composition of the neighborhood are not appraisal factors.																
	Neighborhood boundaries and characteristics: The neighborhood boundaries are the Potomac River to the North, I-495 to the the West, I-66 to the South and the Arlington to the East.																
	Factors that affect the marketability of the properties in the neighborhood (proximity to employment and amenities, employment stability, appeal to market, etc.):																
	The subject neighborhood is located within approximately 3+ miles West of Washington D.C. Employment centers are located within 3+ miles. Local schools are within 2+ miles. I-495 access is located approx. 2+ miles from the subject. Neighborhood and regional shopping are located within 5+ miles. Public/private recreational facilities are within 1+ mile. See addendum for comments pertaining to employment stability and market appeal.																
	THIS IS AN APPRAISAL REPORT.																
	Market conditions in the subject neighborhood (including support for the above conclusions related to the trend of property values, demand/supply, and marketing time -- such as data on competitive properties for sale in the neighborhood, description of the prevalence of sales and financing concessions, etc.):																
Neighborhood property values range from approximately \$770,000 to more than \$27,500,000. Marketing time in the subject's market area is typically less than three months. Neighborhood properties typically sell for list price. Sale prices in the subject's neighborhood appear stable and can fluctuate seasonally. Financing includes some private, VA, FHA, but predominantly conventional and some cash sales. Typical seller concessions are from 0-3 points.																	
PUD	Project Information for PUDs (If applicable) - - Is the developer/builder in control of the Home Owners' Association (HOA)? ☐ Yes ☐ No N/A

Comments on Sales Comparison (including the subject property's compatibility to the neighborhood, etc.): The subject property is compatible to the neighborhood, and the improvements are typical of those found in the market area. Three settled sales and one under contract sale were utilized in the final value estimate. The adjusted value range is from \$1,920,000 to \$2,243,650. Comparable sales #1-#3 are located in the subject's market area and were given the most consideration in the final estimate of value. Comparable sale #3 tends toward the lower end of the spectrum of value, but is balanced by the higher indicated value of comparable sale #2. Comparable sale #4 is under contract and further supports the estimate of value. The subject's estimate of value tends toward the mid range. THIS IS AN APPRAISAL REPORT.

RECONCILIATION

This appraisal is made ☒ "as is" ☐ subject to the repairs, alterations, inspections or conditions listed below ☐ subject to completion per plans & specifications.

Conditions of Appraisal: The subject is appraised in "Good" or "as is" condition, as of the inspection date of this report. This appraisal is subject to attached Limiting Conditions.

Final Reconciliation: The estimate of value is based on the Sales Comparison Approach, which the appraiser believes to be the most reliable indicator of market value for the subject. The Income and cost approaches were not utilized due to lack of available data.

The purpose of this appraisal is to estimate the market value of the real property that is the subject of this report, based on the above conditions and the certification, contingent and limiting conditions, and market value definition that are stated in the attached Freddie Mac Form 439/FNMA form 1004B (Revised 6/93).

I (WE) ESTIMATE THE MARKET VALUE, AS DEFINED, OF THE REAL PROPERTY THAT IS THE SUBJECT OF THIS REPORT, AS OF 07/08/2026

(WHICH IS THE DATE OF INSPECTION AND THE EFFECTIVE DATE OF THIS REPORT) TO BE \$ 2,100,000

UNIFORM RESIDENTIAL APPRAISAL REPORT MARKET DATA ANALYSIS

These recent sales of properties are most similar and proximate to subject and have been considered in the market analysis. The description includes a dollar adjustment, reflecting market reaction to those items of significant variation between the subject and comparable properties. If a significant item in the comparable property is superior to, or more favorable than, the subject property, a minus (-) adjustment is made, thus reducing the indicated value of the subject. If a significant item in the comparable is inferior to, or less favorable than, the subject property, a plus (+) adjustment is made, thus increasing the indicated value of the subject.

COMMENTS	Comments: The subject property is in overall "Good" condition and the main-level was completely renovated in 2013. Upgrades include renovated kitchen with quartzite counters, upgraded appliances and hardware, 9.5 ft. tray and cathedral ceilings, 8" white oak upgraded flooring, built-ins, skylights, upgraded wiring/lighting, speaker system, heated flooring in basement, renovated .5 bath, updated basement bath, and trim work. Roof was replaced in 2024, HVAC system in 2017, water heater in 2018 and driveway in 2025. Deferred maintenance dated upper full bathrooms, carpet stains, older windows, drywall damage on bathroom ceiling from previous leak, painting needed, exterior trim and siding damage. See attached photographs.												
	Comparable sale #1 is in overall "Good/Superior" condition, has limited deferred maintenance, renovated bathrooms and superior overall custom upgrades/renovations an adjustment of \$100,000 was used. This sale's condition, quality of construction and exterior features were verified with the listing agent Chris Earman of Weichert Ealtors 703-628-4541. Chris stated that one of the upper bedrooms was converted to a closet and is not a legal bedroom. See addendum for bedroom comment.												
	Comparable sale #2 is in similar overall "Good" condition to the subject. This sale's condition, quality of construction and exterior features were verified with the listing agent Andrew Musser of KW United 703-996-2180.												
	Comparable sale #3 is in overall "Good/Inferior" condition and has inferior kitchen, bathroom and overall upgrades/renovations. This comparable sale has an older roof and CAC. This comparable is inferior in condition to the subject an adjustment of \$50,000 was used. This sale's condition, quality of construction and exterior features were verified with the listing agent William Hoffman of Keller Williams Realty 703-309-2205.												
	Comparable sale #4 is in overall "Good/Superior" condition, has limited deferred maintenance, renovated bathrooms and superior overall custom upgrades/renovations an adjustment of \$100,000 was used. This sale's condition, quality of construction and exterior features were verified with the listing agent's assistant Adelle Robinson of Compass 703-348-6326 who provided an improvement list. This sale was under contract at the time of the inspection and sold 07/15/2026 for \$2,500,000. This comparable supports the estimate of value for the subject property.												
	Condition and upgrade adjustments made in this report are based upon the assumption that the photographs/information available and provided to the appraiser for the comparable sales are accurate. The photographs/information for these adjustments were taken from MLS/Assessment records/Agents and were interpreted by the appraiser. The appraiser has not inspected the interior of the comparable sales unless noted in this report. The age difference for all comparable sales is included in with the overall condition rating.												
	Comparable sales within 2,500 sf of the subject's lot size are similar in utility.												

ADDITIONAL CERTIFICATION

Owner	Ghazal T Moore & Benjamin C Moore				File No.		C26-1980-D	
Property Address	1502 Linden Hurst Ave							
City	McLean	County	Fairfax	State	VA	Zip Code	22101	
Client	Roop Xanttopoulos Babounakis & Klam PLLC							

APPRAISER'S CERTIFICATION: The Appraiser certifies and agrees that:

1. I have researched the subject market area and have selected a minimum of three recent sales of properties most similar and proximate to the subject property for consideration in the sales comparison analysis and have made a dollar adjustment when appropriate to reflect the market reaction to those items or significant variation. If a significant item in a comparable property is superior to, or more favorable than, the subject property, I have made a negative adjustment to reduce the adjusted sales price of the comparable and, if a significant item in a comparable property is inferior to, or less favorable than the subject property, I have made a positive adjustment to increase the adjusted sales price of the comparable.
2. I have taken into consideration the factors that have an impact on value in my development of the estimate of market value in the appraisal report. I have not knowingly withheld any significant information from the appraisal report and I believe, to the best of my knowledge, that all statements and information in the appraisal report and true and correct.
3. I stated in the appraisal report only my own personal, unbiased, professional analyses, opinions, and conclusions, which are subject only to the contingent and limiting conditions specified in this form. I certify that, to the best of my knowledge and belief: The statements of fact contained in this report are true and correct. The report analyses, opinions, and conclusions are limited only by the reported assumptions and limiting conditions, and are my personal, impartial, and unbiased professional analyses, opinions and conclusions.
4. I have no present or prospective interest in the property that is the subject of this report, and no personal interest with respect to the parties involved. I did not base, either partially or completely, my analysis and/or the estimate of market value in the appraisal report on the race, color, religion, sex, handicap, familial status, or national origin of either the prospective owners or occupants of the subject property or the present owners or occupants of the properties in the vicinity of the subject property.
5. I have no present of contemplated future interest in the subject property, and neither my current or future employment nor my compensation for performing this appraisal is contingent on the appraised value of the property.
6. My engagement in this assignment was not contingent upon developing or reporting predetermined results. My compensation for completing this assignment is not contingent upon the development or reporting of a predetermined value or direction in value that favors the cause of the client, the amount of the value opinion, the attainment of a stipulated result, or the occurrence of a subsequent event directly related to the intended use of this appraisal.
7. My analyses, opinions, and conclusions were developed, and this report has been prepared, in conformity with the Uniform Standards of Professional Appraisal Practice in place, as of the effective date of this appraisal, with the exception of the departure provision of those Standards, which does not apply. I acknowledge that an estimate of a reasonable time for exposure in the open market is a condition in the definition of the market value and the estimate I developed is consistent with the marketing time noted in the neighborhood section of this report, unless I have otherwise stated in the reconciliation section.
8. I have made a personal inspection of the property that is the subject of this report. I further certify that I have noted any apparent or known adverse conditions in the subject improvements, on the subject site, or on any site within the immediate vicinity of the subject property of which I am aware and have made adjustments for these adverse conditions in my analysis of the property value to the extent that I had market evidence to support them. I have also commented about the effect of the adverse conditions on the marketability of the subject property.
9. No one provided significant professional assistance to the person signing this report. If I relied on significant professional assistance from any individuals in the performance of the appraisal or the preparation of the appraisal report, I have named such individual(s) and disclosed the specific tasks performed by them in the reconciliation section of this appraisal report. I certify that any individual so named is qualified to perform the tasks. I have not authorized anyone to make a change to any item in the report, therefore, if an unauthorized change is made to the appraisal report, I will take no responsibility for it.
10. The purpose of this appraisal is for the equitable distribution of the real estate due to a divorce. The intended user of this appraisal report is the client and Ghazal T Moore. This report is not intended for any other use or to be used by any other party. The reasonable exposure time is estimated between 0 and 90 days. The appraiser has not appraised or performed any other services for the subject property within the past 3 years from the acceptance of this assignment. The opinion of market value is based upon the estimated reasonable exposure time.

SUBJECT SECTION

The interest appraised in this report is the fee simple interest of the Subject property as a whole, as if owned in fee simple, free and clear of any encumbrances, special assessments, leases or other liens.

Personal property items which are present on the Subject property are not part of the subject of this report. Their existence within the Subject property does not significantly affect the Subject's value, as these items are insignificant in value compared to the Real property. No part of the Appraiser's estimate value for the Subject property is attributable to personal property. P stands for personal property and includes the shed.

NEIGHBORHOOD SECTION

Characteristics - The Subject neighborhood is comprised of single family detached dwellings, attached dwellings, multi-family, commercial office, high rise condominiums and raw land. Current land uses within the neighborhood are compatible. The general appearance of neighborhood properties is typical of that found throughout the general marketing area. Utility service which includes electricity, public water & sewer, as well as some private wells and septic systems, and natural gas to some properties is adequate.

The appraiser's estimate of market value for the subject property is greater than the predominant price within the neighborhood, but does fall within the neighborhood price range. This does not affect the marketability of the subject property.

The "other" in present land use refers to county owned land (parks, rec. centers, police/fire station, roadways). This is typical for all market areas.

Employment Stability and Appeal to Market - Employment within the neighborhood is believed to be stable. Overall appeal of the Subject neighborhood is typical for the market area.

PUD SECTION

Not in a PUD.

SITE SECTION

The present use of the Subject property conforms to the neighborhood and conforms to current zoning regulations. As currently improved the Subject meets the requirements for testing highest and best use, that is, the present use is physically possible, legally permissible, financially feasible and is the maximally productive use over any other uses that meet the preceding four requirements.

While the appraiser can usually detect apparent easements and encroachments and has made himself familiar with restrictions and covenants in many area neighborhoods, the Appraiser has not conducted, nor is he qualified to conduct, a legal survey of the property or a formal title search. It is strongly recommended that the client obtain the services of a qualified surveyor to perform a survey and a title company or attorney to conduct a title search to uncover any non-apparent restrictions, covenants, easements or encroachments which may apply to the Subject property.

IMPROVEMENTS SECTION

The Appraiser has not conducted a complete search of enclosed areas of the Subject improvements for insulation. Insulation has therefore been rated as "Unkwn." (unknown) regarding its adequacy. For the purposes of this report, insulation is assumed to be present and adequate.

COMMENTS

Quality of Construction, Remodeling/Additions - The quality of construction of the Subject improvements is rated as good.

COST APPROACH SECTION

The Cost approach was not utilized due to lack of available data.

SALES COMPARISON ANALYSIS SECTION

In the Sales Comparison Analysis, adjustments for differences in bathrooms are made on the top of the above grade room count-gross living area line. Gross living area and room count differences are adjusted together on the bottom of the same line.

Supplemental Addendum

File No. C26-1980-D

Owner	Ghazal T Moore & Benjamin C Moore					
Property Address	1502 Linden Hurst Ave					
City	McLean	County	Fairfax	State	VA	Zip Code 22101
Client	Roop Xanttopoulos Babounakis & Klam PLLC					

The public records are incorrect for the subject property's above grade square footage. The subject property was hand measured using ANSI standards and is accurate. There was finished area above grade that was not counted as square footage.This is typical for the market area.

The line adjustment exceeds 10% for some of the comparable sales. While these adjustments are larger than normally utilized, the comparable properties displayed are considered by the appraiser to be the best comparable sales from the market data available. These adjustments do not affect the reliability of the appraiser's estimate of market value for the subject property.

The price per gross living area for some of the comparables varies from that of the subject by more than ten dollars per square foot, but this difference is not considered significant and does not affect the reliability of the appraiser's market value estimate.

Some of the comparable sales settled more than six months prior to the date of this report. They were utilized since they were more comparable to the subject property than other more recent sales. Sales prices in the subject's market area appear to be stable and can fluctuate seasonally. Therefore a time adjustment was not needed.

The above grade gross living area for some of the comparable sales differs from the above grade gross living area of the subject property by more than five hundred square feet. While this difference is larger than that of the comparables normally utilized, the comparable properties displayed are considered by the appraiser to be the best comparable sales from the market data available and this difference in gross living area above grade does not affect the reliability of the appraiser's estimate of market value for the subject property.

An adjustment of \$125.00 per square foot was utilized for comparable sales with more than a 100sf difference above grade.

An adjustment of \$50.00 was used per square foot for comparable sales with more than a 200sf difference in square footage below grade. Comparable sales within 200sf of the subject's below grade square footage are similar.

Adjustments are made based on market extraction of reasonable market reaction, in terms of dollars, to differences between the Subject property and the comparable sales. Where there is a difference between the Subject and the comparable sales that affects Market Value, the Appraiser has attempted to bracket the particular feature in order to avoid all positive or all negative adjustments for a particular feature.

Condition and upgrade adjustments made in this report are based upon the assumption that the photographs/information available to the appraiser for the comparable sales utilized are accurate. The photographs/information for these adjustments were taken from MLS/Assessment records and were interpreted by the appraiser. The appraiser has not inspected the interior of the comparable sales unless noted in this report.

RECONCILIATION SECTION

Single family residences in this area are significantly owner occupied and as a result there is little data on neighborhood rental properties. Since homes in the neighborhood are not typically sold as income producing properties, the Appraiser has excluded the income approach, believing it to be unreliable and inappropriate for this assignment.

OTHER COMMENTS AND CONDITIONS

The Appraiser affirms that he is competent to perform this appraisal assignment in conformance with the Competency Provision of the Uniform Standards of Professional Appraisal Practice.

The estimate of value is based on the Sales Comparison Approach, which the appraiser believes to be the most reliable indicator of market value for the subject. The Income and cost approaches were not utilized due to lack of available data.

The site has typical utility easements for unit owners, which do not adversely affect marketability. No other easements, encroachments, or other adverse factors were noted.

Some of the comparable photographs were utilized from other reports. The appraiser has inspected the exterior of all comparable sales. The inspection of the exterior of the comparable sales was performed from the street. This inspection occurred prior to the signature date of this report. The MLS photographs were utilized to depict the condition of the comparable sales at time of closing. Photographs may have been zoomed in to provided a better front view of the comparable sales.This does not affect the estimate of value for the subject property.

Supplemental Addendum

File No. C26-1980-D

Owner	Ghazal T Moore & Benjamin C Moore				
Property Address	1502 Linden Hurst Ave				
City	McLean	County	Fairfax	State	VA Zip Code 22101
Client	Roop Xanttopoulos Babounakis & Klam PLLC				

Complete visual inspection of the interior areas of the subject property: A visual observation from standing height of the accessible area and unobstructed, exposed surfaces of the living area without removal or personal possessions. It includes the visual observation of attached automobile storage, if any, as well as of any attached accessory building judged by the appraiser to have contributory value. This includes visual observation of the basements, crawl spaces and attics, if accessible.

A complete visual inspection of the exterior of the subject's property. The visual observation of unobstructed, exposed and accessible perimeter of the residential improvements from standing height. It includes visual observation of the detached automobile storage, if any, as well as any detached assessor building judged by the appraiser to have contributory value.

"Exposure time" is the estimated length of time the property interest being appraised would have been offered on the market prior to the hypothetical consummation of a sale at market value on the effective date of the appraisal; a retrospective estimate based upon an analysis of past events assuming a competitive and open market.

This appraisal report is not an inspection report. The appraiser is not a certified home inspector and does not guarantee the property is free of defects or environmental hazards, A professional home inspection and environmental inspection is recommended. This appraisal is based upon the extraordinary assumption that all construction/improvements have been done with the appropriate permits and inspections by the county which, if found to be false, could alter the appraiser's opinions or conclusions.

The subject property is in overall "Good" condition and the main-level was completely renovated in 2013. Upgrades include renovated kitchen with quartzite counters, upgraded appliances and hardware, 9.5 ft, trey and cathedral ceilings, 8" white oak upgraded flooring, built-ins, skylights, upgraded wiring/lighting, speaker system, heated flooring in basement, renovated .5 bath, updated basement bath, and trim work. Roof was replaced in 2024, HVAC system in 2017, water heater in 2018 and driveway in 2025. Deferred maintenance dated upper full bathrooms, carpet stains, older windows, drywall damage on bathroom ceiling from previous leak, painting needed, exterior trim and siding damage See attached photographs.

This appraisal report is based upon the extraordinary assumption that there are no active leaks which, if found to be false, could alter the appraiser's opinions and conclusions.

(USPAP) defines extraordinary assumption as follows:

An assignment-specific assumption as of the effective date regarding uncertain information used in an analysis which, if found to be false, could alter the appraiser's opinions or conclusions. Uncertain information might include physical, legal, or economic characteristics of the subject property; or conditions external to the property, such as market conditions or trends; or the integrity of data used in an analysis.

Client	Roop Xanttopoulos Babounakis & Klam PLLC				

SCOPE OF THE APPRAISAL ASSIGNMENT

In estimating the market value of the subject property an unbiased and systematic procedure is followed, which leads to a logical final conclusion. The steps followed in this procedure and sources utilized are described below

IDENTIFY THE INTEREST TO BE APPRAISED AND THE PURPOSE OF THE APPRAISAL - Based on the nature of the assignment and request of the client.

IDENTIFY AND GATHER SUBJECT PROPERTY INFORMATION - The appraiser consults assessment records, Realtor MLS listings, property/zoning maps, land use maps, F.E.M.A. Flood Insurance Rate Maps, census tract maps, and regional and local street maps. Information is also obtained from the owner and/or Realtor. Additional information may be obtained from assessors or zoning officials.

DEFINE AND GATHER NEIGHBORHOOD INFORMATION - Appraiser utilizes local street maps, land use maps, property/zoning maps, and makes a visual inspection to define the neighborhood. Assessment records of residential properties in the identified neighborhood are researched as is Realtors MLS for properties currently available for sale and properties sold within the last year. These are totalled and statistically analyzed to identify neighborhood characteristics and neighborhood trends related to value and marketability. Aspects analyzed include owner occupant rate, assessment values, sales prices, list prices, age of improvements, house styles, lot sizes, utility service, land assessment/total assessment ratios, list price sales/prices ratios, marketing time, financing utilized, and seller concessions. Information may also be obtained from builders, owners or Realtors, when appropriate. Additional information about the specific project in which the subject is located within a PUD, or a Public Offering Statement and/or management company if the subject is located within a condominium development.

IDENTIFY AND GATHER INFORMATION PERTAINING TO COMPARABLE PROPERTIES - The appraiser researches Realtors MLS for recent sales, under contract properties, and available neighborhood properties which are the most similar to the subject. A search is also made for sales and lease transactions of residential income properties in the neighborhood and vacant land sales. Assessment records for these properties is researched. This information, as well as PUD and condominiums information is examined and analyzed. Additional information pertaining to these or other similar properties uncovered may also be obtained from builders, owners, assessors, zoning officials or other municipal agency personnel, when available and appropriate.

INSPECTION OF THE SUBJECT - The subject property, interior and exterior, is inspected by the appraiser who notes interior features, materials, type and condition, including major systems such as heating, air conditioning, plumbing, electrical, roof, and kitchen equipment. Any apparent system or functional deficiencies, or any apparent hazardous substances are noted. Exterior measurements are taken to determine actual gross living area above grade and finished and unfinished area below grade. Landscaping and other site improvements or deficiencies are visually inspected and noted, as are any apparent easements or encroachments. Photographs are taken of the front and rear of the subject improvements as is a street scene. Unusual conditions or additional improvements may also be photographed. Information previously provided by other parties is confirmed or amended. It should be noted that the appraiser is trained in the valuation of real property and is not qualified to perform an inspection of the improvements or site with the same expertise of a home inspector, surveyor or environmental specialist. The appraiser reports apparent deficiencies only, as observed by him during this routine inspection or as may be uncovered by other research described in this scope.

INSPECT COMPARABLE PROPERTIES - An exterior visual inspection is made of the comparable properties (usually from the public sidewalk or street) noting design, exterior features and site improvements where possible, and any other positive or negative influences that the appraiser determines may significantly affect the value or marketability of the comparable property. The appraiser does not inspect the interior of comparable properties. Based on information previously obtained and this limited exterior inspection, the appraiser chooses the most appropriate comparable sales and photographs of the front of the improvements of the properties. If in the initial research of comparable properties, an ample number of residential income property transactions or vacant land sales were found, then those properties are also viewed from the exterior and may be photographed.

THE REPORT FORM AND APPROACHES TO VALUE - The appraiser completes the appraisal report form based on all relevant, reliable information obtained. An addendum to the report form is used to make explanatory notes. It follows the report form section by section. (Cost Approach) Land value is estimated by comparison to sales of similar sites when vacant, if available. When the number of comparable land

General Text Addendum

File No. C26-1980-D

Owner	Ghazal T Moore & Benjamin C Moore				
Property Address	1502 Linden Hurst Ave				
City	McLean	County	Fairfax	State	VA Zip Code 22101
Client	Roop Xanttopoulos Babounakis & Klam PLLC				

sales is not sufficient or the information obtained is not considered complete enough to be a reliable indicator of value, land value is estimated by the abstraction method. That is, subtracting a depreciated reproduction cost of improvements and site improvements from the sales price of recent comparable sales, and attributing the remainder to land value. The appraiser then compares these sites as if vacant to the subject site as if vacant to estimate a land value for the subject property. Reproduction cost-new-of-improvements is estimated using Marshall & Swift Residential Cost Handbook and cost information obtained from the local building industry, as is the depreciated cost of existing site improvements. Depreciation is calculated based on the appraiser's estimate of the subject's effective age which is derived from the chronological age, present condition and expected economic life of the subject improvements including major systems. (Sales Comparison Approach) After investigation and confirmation of relevant information obtained, the appraiser completes the market approach displaying the comparables that he considers to be the most similar to the subject property based on financing, time location, features and condition. Adjustments made in this approach are based on market extraction through matched paired sales analysis or otherwise known market reaction in terms of dollars to the specific differences between the subject property and the comparable sales. Adjustments are not based on cost figures. After adjustments are made, the different indication of value from each of the comparable sales is given a weighted average, based on the similarity to the subject and reliability of information obtained, and an estimate of value using the market approach is reconciled. (Income Approach) Estimated value by the income approach is calculated by the market rent, derived from comparable rentals when an ample number are available, and a gross rent multiplier, derived from sales of rental units purchased for income production when an ample number are available. When there is not sufficient data to reach a meaningful indication of value using this approach it is noted on the report form.

FINAL RECONCILIATION - A final reconciliation of the approaches to value utilized in the development of this report is completed based on the reliability of each approach and of the information obtained. The appraiser then makes his estimate of market value for the subject property.

PACKAGE AND REVIEW - The report is packaged to include the report form, addendum to the report form, definition of market value and certification of limiting condition, this scope, a floor plan sketch, map and photograph addenda. Other addendum may be included when appropriate. The appraiser reviews the report for accuracy and the report may be reviewed by another appraiser who signs the report as Supervisory Appraiser. The Supervisory Appraiser performs a "desk review" of the report assuming that all material facts presented in the report are true and accurate and that no pertinent fact has been knowingly withheld. The appraisal report is then delivered to the client.

DEFINITION OF MARKET VALUE: The most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller, each acting prudently, knowledgeably and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby: (1) buyer and seller are typically motivated; (2) both parties are well informed or well advised, and each acting in what he considers his own best interest; (3) a reasonable time is allowed for exposure in the open market; (4) payment is made in terms of cash in U.S. dollars or in terms of financial arrangements comparable thereto; and (5) the price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions* granted by anyone associated with the sale.

* Adjustments to the comparables must be made for special or creative financing or sales concessions. No adjustments are necessary for those costs which are normally paid by sellers as a result of tradition or law in a market area; these costs are readily identifiable since the seller pays these costs in virtually all sales transactions. Special or creative financing adjustments can be made to the comparable property by comparisons to financing terms offered by a third party institutional lender that is not already involved in the property or transaction. Any adjustment should not be calculated on a mechanical dollar for dollar cost of the financing or concession but the dollar amount of any adjustment should approximate the market's reaction to the financing or concessions based on the appraiser's judgement.

STATEMENT OF LIMITING CONDITIONS AND APPRAISER’S CERTIFICATION

CONTINGENT AND LIMITING CONDITIONS: The appraiser's certification that appears in the appraisal report is subject to the following conditions:

1. The appraiser will not be responsible for matters of a legal nature that affect either the property being appraised or the title to it. The appraiser assumes that the title is good and marketable and, therefore, will not render any opinions about the title. The property is appraised on the basis of it being under responsible ownership.
2. The appraiser has provided a sketch in the appraisal report to show approximate dimensions of the improvements and the sketch is included only to assist the reader of the report in visualizing the property and understanding the appraiser's determination of its size.
3. The appraiser has examined the available flood maps that are provided by the Federal Emergency Management Agency (or other data sources) and has noted in the appraisal report whether the subject site is located in an identified Special Flood Hazard Area. Because the appraiser is not a surveyor, he or she makes no guarantees, express or implied, regarding this determination.
4. The appraiser will not give testimony or appear in court because he or she made an appraisal of the property in question, unless specific arrangements to do so have been made beforehand.
5. The appraiser has estimated the value of the land in the cost approach at its highest and best use and the improvements at their contributory value. These separate valuations of the land and improvements must not be used in conjunction with any other appraisal and are invalid if they are so used.
6. The appraiser has noted in the appraisal report any adverse conditions (such as, needed repairs, depreciation, the presence of hazardous wastes, toxic substances, etc.) observed during the inspection of the subject property or that he or she became aware of during the normal research involved in performing the appraisal. Unless otherwise stated in the appraisal report, the appraiser has no knowledge of any hidden or unapparent conditions of the property or adverse environmental conditions (including the presence of hazardous wastes, toxic substances, etc.) that would make the property more or less valuable, and has assumed that there are no such conditions and makes no guarantees or warranties, express or implied, regarding the condition of the property. The appraiser will not be responsible for any such conditions that do exist or for any engineering or testing that might be required to discover whether such conditions exist. Because the appraiser is not an expert in the field of environmental hazards, the appraisal report must not be considered as an environmental assessment of the property.
7. The appraiser obtained the information, estimates, and opinions that were expressed in the appraisal report from sources that he or she considers to be reliable and believes them to be true and correct. The appraiser does not assume responsibility for the accuracy of such items that were furnished by other parties.
8. The appraiser will not disclose the contents of the appraisal report except as provided for in the Uniform Standards of Professional Appraisal Practice.
9. The appraiser has based his or her appraisal report and valuation conclusion for an appraisal that is subject to satisfactory completion, repairs, or alterations on the assumption that completion of the improvements will be performed in a workmanlike manner.
10. The appraiser must provide his or her prior written consent before the lender/client specified in the appraisal report can distribute the appraisal report (including conclusions about the property value, the appraiser's identity and professional designations, and references to any professional appraisal organizations or the firm with which the appraiser is associated) to anyone other than the borrower; the mortgagee or its successors and assigns; the mortgage insurer; consultants; professional appraisal organizations; any state or federally approved financial institution; or any department, agency, or instrumentality of the United States or any state or the District of Columbia; except that the lender/client may distribute the property description section of the report only to data collection or reporting service(s) without having to obtain the appraiser's prior written consent. The appraiser's written consent and approval must also be obtained before the appraisal can be conveyed by anyone to the public through advertising, public relations, news, sales, or other media.

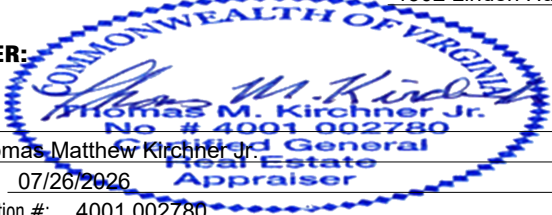

APPRAISER’S CERTIFICATION: The Appraiser certifies and agrees that:

1. I have researched the subject market area and have selected a minimum of three recent sales of properties most similar and proximate to the subject property for consideration in the sales comparison analysis and have made a dollar adjustment when appropriate to reflect the market reaction to those items of significant variation. If a significant item in a comparable property is superior to, or more favorable than, the subject property, I have made a negative adjustment to reduce the adjusted sales price of the comparable and, if a significant item in a comparable property is inferior to, or less favorable than the subject property, I have made a positive adjustment to increase the adjusted sales price of the comparable.
2. I have taken into consideration the factors that have an impact on value in my development of the estimate of market value in the appraisal report. I have not knowingly withheld any significant information from the appraisal report and I believe, to the best of my knowledge, that all statements and information in the appraisal report are true and correct.
3. I stated in the appraisal report only my own personal, unbiased, and professional analysis, opinions, and conclusions, which are subject only to the contingent and limiting conditions specified in this form.
4. I have no present or prospective interest in the property that is the subject to this report, and I have no present or prospective personal interest or bias with respect to the participants in the transaction. I did not base, either partially or completely, my analysis and/or the estimate of market value in the appraisal report on the race, color, religion, sex, handicap, familial status, or national origin of either the prospective owners or occupants of the subject property or of the present owners or occupants of the properties in the vicinity of the subject property.
5. I have no present or contemplated future interest in the subject property, and neither my current or future employment nor my compensation for performing this appraisal is contingent on the appraised value of the property.
6. I was not required to report a predetermined value or direction in value that favors the cause of the client or any related party, the amount of the value estimate, the attainment of a specific result, or the occurrence of a subsequent event in order to receive my compensation and/or employment for performing the appraisal. I did not base the appraisal report on a requested minimum valuation, a specific valuation, or the need to approve a specific mortgage loan.
7. I performed this appraisal in conformity with the Uniform Standards of Professional Appraisal Practice that were adopted and promulgated by the Appraisal Standards Board of The Appraisal Foundation and that were in place as of the effective date of this appraisal, with the exception of the departure provision of those Standards, which does not apply. I acknowledge that an estimate of a reasonable time for exposure in the open market is a condition in the definition of market value and the estimate I developed is consistent with the marketing time noted in the neighborhood section of this report, unless I have otherwise stated in the reconciliation section.
8. I have personally inspected the interior and exterior areas of the subject property and the exterior of all properties listed as comparables in the appraisal report. I further certify that I have noted any apparent or known adverse conditions in the subject improvements, on the subject site, or on any site within the immediate vicinity of the subject property of which I am aware and have made adjustments for these adverse conditions in my analysis of the property value to the extent that I had market evidence to support them. I have also commented about the effect of the adverse conditions on the marketability of the subject property.
9. I personally prepared all conclusions and opinions about the real estate that were set forth in the appraisal report. If I relied on significant professional assistance from any individual or individuals in the performance of the appraisal or the preparation of the appraisal report, I have named such individual(s) and disclosed the specific tasks performed by them in the reconciliation section of this appraisal report. I certify that any individual so named is qualified to perform the tasks. I have not authorized anyone to make a change to any item in the report; therefore, if an unauthorized change is made to the appraisal report, I will take no responsibility for it.

SUPERVISORY APPRAISER’S CERTIFICATION: If a supervisory appraiser signed the appraisal report, he or she certifies and agrees that: I directly supervise the appraiser who prepared the appraisal report, have reviewed the appraisal report, agree with the statements and conclusions of the appraiser, agree to be bound by the appraiser’s certifications numbered 4 through 7 above, and am taking full responsibility for the appraisal and the appraisal report.
