Uniform Residential Appraisal Report

File #

The purpose of this summary appraisal report is to provide the lender/client with an accurate, and adequately supported, opinion of the market value of the subject property.										
SUBJECT	Property Address 1502 Linden Hurst Ave				City Mc Lean		State VA		Zip Code 22101	
	Borrower Moore, Ben & Ghazal		Owner of Public Record Moore, Ben & Ghazal		County Fairfax					
	Legal Description SECOND BRYN MAWR LT 33									
	Assessor's Parcel # 0304-03-0033				Tax Year 2026		R.E. Taxes \$ 19,206			
	Neighborhood Name Bryn Mawr				Map Reference 11694		Census Tract 4707.00			
	Occupant ☒ Owner ☐ Tenant ☐ Vacant		Special Assessments \$ 0		☐ PUD HOA \$ 0		☐ per year ☐ per month			
	Property Rights Appraised ☒ Fee Simple ☐ Leasehold ☐ Other (describe)									
	Assignment Type ☐ Purchase Transaction ☐ Refinance Transaction ☒ Other (describe)									
	Lender/Client Moore, Ben & Ghazal				Address 1502 Linden Hurst Ave, McLean, VA 22101					
	Is the subject property currently offered for sale or has it been offered for sale in the twelve months prior to the effective date of this appraisal? ☐ Yes ☒ No									
Report data source(s) used, offering price(s), and date(s). There is no known listing history for the subject property during the past year as per MLS.										
CONTRACT	I ☐ did ☐ did not analyze the contract for sale for the subject purchase transaction. Explain the results of the analysis of the contract for sale or why the analysis was not performed.									
	Contract Price \$				Date of Contract		Is the property seller the owner of public record? ☐ Yes ☐ No		Data Source(s)	
	Is there any financial assistance (loan charges, sale concessions, gift or downpayment assistance, etc.) to be paid by any party on behalf of the borrower? ☐ Yes ☐ No									
	If Yes, report the total dollar amount and describe the items to be paid.									
NEIGHBORHOOD	Note: Race and the racial composition of the neighborhood are not appraisal factors.									
	Neighborhood Characteristics			One-Unit Housing Trends			One-Unit Housing		Present Land Use %	
	Location ☐ Urban ☒ Suburban ☐ Rural	Property Values ☐ Increasing ☒ Stable ☐ Declining	PRICE	AGE	One-Unit	75 %				
	Built-Up ☐ Over 75% ☒ 25-75% ☐ Under 25%	Demand/Supply ☐ Shortage ☒ In Balance ☐ Over Supply	\$ (000)	(yrs)	2-4 Unit	%				
	Growth ☐ Rapid ☒ Stable ☐ Slow	Marketing Time ☒ Under 3 mths ☐ 3-6 mths ☐ Over 6 mths	250	Low	0	Multi-Family	5 %			
	Neighborhood Boundaries The subject and comp.'s considered are bounded to the N. by the Georgetown Pike, to the S. by Old Chesterbrook Rd., to the W. by the Capital Beltway 495, and to the E. by Kirby Rd.			3,500	High	99	Commercial	10 %		
	Neighborhood Description McLean, located in Fairfax County, VA, is a suburb of Washington, D.C., and is near parks, convenience shopping, malls, schools, and houses of worship. Good proximity to the Georgetown Pike, Route 7, the Dulles Toll Road, Route 66, the Washington Capital Beltway, and Interstate 95. Above average employment stability. Close proximity to public transportation and downtown Washington D.C.			750	Pred.	25	Other	10 %		
	Market Conditions (including support for the above conclusions) Conventional financing is readily available at rates purchasers consider reasonable, with buyer typically paying 0 to 3 points. Financing includes FHA, VA, and conventional. Long term growth factors are definitely favorable for the area as a whole, for Fairfax County remains one of the fastest growing jurisdictions in the region.									
	SITE	Dimensions No survey provided.		Area 12,500 sf		Shape Rectangular		View N;Res;		
Specific Zoning Classification R-4		Zoning Description Residential								
Zoning Compliance ☒ Legal ☐ Legal Nonconforming (Grandfathered Use)		☐ No Zoning ☐ Illegal (describe)								
Is the highest and best use of subject property as improved (or as proposed per plans and specifications) the present use? ☒ Yes ☐ No If No, describe										
Utilities Public Other (describe)		Public Other (describe)		Off-site Improvements - Type		Public Private				
Electricity ☒ ☐		Water ☒ ☐	Street Asphalt		☒ ☐					
Gas ☒ ☐		Sanitary Sewer ☒ ☐	Alley None		☐ ☐					
FEMA Special Flood Hazard Area ☐ Yes ☒ No		FEMA Flood Zone X		FEMA Map # 51059C0170E		FEMA Map Date 09/17/2010				
Are the utilities and off-site improvements typical for the market area? ☒ Yes ☐ No If No, describe										
Are there any adverse site conditions or external factors (easements, encroachments, environmental conditions, land uses, etc.)? ☐ Yes ☒ No If Yes, describe										
Typical utility easements which do not adversely affect marketability. No other easements, encroachments or other site factors observed which adversely affect marketability. Other land uses include schools, places of worship, hospitals, parks, and other municipal and governmental uses.

Effective Date of Data Source(s)		05/01/2026			05/01/2026			05/01/2026			05/01/2026		
Analysis of prior sale or transfer history of the subject property and comparable sales													
There has been no known prior sale of the subject during the past three years according to the MLS Fairfax County Tax Assessment Office records.													
Summary of Sales Comparison Approach													
Effective age and condition adjustments based on visual observation and descriptions and pictures in MLS and county tax records. The comparables considered reasonably bracket the subjects above grade gross living area, year built, and acreage, and are most similar to the subject in design, construction materials, utility, proximity, and closed sales dates. The above grade gross living area adjustment based upon \$30.00 per sf. The subjects and comparables considered GLA derived directly from county tax records. The extraordinary assumption is made that the data contained within this report and the sources upon which the data was derived from is both accurate and correct. Most consideration given to the mean (\$1,804,354) of the comparables considered adjusted values, rounded.													
Indicated Value by Sales Comparison Approach \$ 1,800,000													
Indicated Value by: Sales Comparison Approach \$ 1,800,000 Cost Approach (if developed) \$ Income Approach (if developed) \$													
Greatest consideration is given to sales comparison approach to value, which is judged to be most reliable indicator of market value for the subject.													
This appraisal is made ☒ "as is", ☐ subject to completion per plans and specifications on the basis of a hypothetical condition that the improvements have been completed, ☐ subject to the following repairs or alterations on the basis of a hypothetical condition that the repairs or alterations have been completed, or ☐ subject to the following required inspection based on the extraordinary assumption that the condition or deficiency does not require alteration or repair: Appraisal is "as is" and subject to all of the conditions in the attached USPAP Identification Form and FIRREA Addendum.													
Based on a complete visual inspection of the interior and exterior areas of the subject property, defined scope of work, statement of assumptions and limiting conditions, and appraiser's certification, my (our) opinion of the market value, as defined, of the real property that is the subject of this report is \$ 1,800,000 , as of 05/01/2026 , which is the date of inspection and the effective date of this appraisal.													

Uniform Residential Appraisal Report

File #

The basement square footage adjusted at \$20.00 per sf, rounded (**top line**); The below grade finish adjustment based upon \$25.00 per sf, rounded, and below grade bathrooms are adjusted at \$10,000 per full, and \$5,000 per half bath (**bottom line**). Because the subject and comparables considered have conforming room counts (both above and) below grade, adjustments based upon square footage only, not room count.

ADDITIONAL COMMENTS

COST APPROACH TO VALUE (not required by Fannie Mae)

Provide adequate information for the lender/client to replicate the below cost figures and calculations.

Is the developer/builder in control of the Homeowners' Association (HOA)? ☐ Yes ☐ No Unit type(s) ☐ Detached ☐ Attached

Provide the following information for PUDs ONLY if the developer/builder is in control of the HOA and the subject property is an attached dwelling unit.

Legal Name of Project

Total number of phases Total number of units Total number of units sold

Total number of units rented Total number of units for sale Data source(s)

Was the project created by the conversion of existing building(s) into a PUD? ☐ Yes ☐ No If Yes, date of conversion.

Does the project contain any multi-dwelling units? ☐ Yes ☐ No Data Source

Are the units, common elements, and recreation facilities complete? ☐ Yes ☐ No If No, describe the status of completion.

Are the common elements leased to or by the Homeowners' Association? ☐ Yes ☐ No If Yes, describe the rental terms and options.

Describe common elements and recreational facilities.

PUD INFORMATION

Uniform Residential Appraisal Report

File #

This report form is designed to report an appraisal of a one-unit property or a one-unit property with an accessory unit; including a unit in a planned unit development (PUD). This report form is not designed to report an appraisal of a manufactured home or a unit in a condominium or cooperative project.

This appraisal report is subject to the following scope of work, intended use, intended user, definition of market value, statement of assumptions and limiting conditions, and certifications. Modifications, additions, or deletions to the intended use, intended user, definition of market value, or assumptions and limiting conditions are not permitted. The appraiser may expand the scope of work to include any additional research or analysis necessary based on the complexity of this appraisal assignment. Modifications or deletions to the certifications are also not permitted. However, additional certifications that do not constitute material alterations to this appraisal report, such as those required by law or those related to the appraiser's continuing education or membership in an appraisal organization, are permitted.

SCOPE OF WORK: The scope of work for this appraisal is defined by the complexity of this appraisal assignment and the reporting requirements of this appraisal report form, including the following definition of market value, statement of assumptions and limiting conditions, and certifications. The appraiser must, at a minimum: (1) perform a complete visual inspection of the interior and exterior areas of the subject property, (2) inspect the neighborhood, (3) inspect each of the comparable sales from at least the street, (4) research, verify, and analyze data from reliable public and/or private sources, and (5) report his or her analysis, opinions, and conclusions in this appraisal report.

INTENDED USE: The intended use of this appraisal report is for the lender/client to evaluate the property that is the subject of this appraisal for a mortgage finance transaction.

INTENDED USER: The intended user of this appraisal report is the lender/client.

DEFINITION OF MARKET VALUE: The most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller, each acting prudently, knowledgeably and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby: (1) buyer and seller are typically motivated; (2) both parties are well informed or well advised, and each acting in what he or she considers his or her own best interest; (3) a reasonable time is allowed for exposure in the open market; (4) payment is made in terms of cash in U. S. dollars or in terms of financial arrangements comparable thereto; and (5) the price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions* granted by anyone associated with the sale.

*Adjustments to the comparables must be made for special or creative financing or sales concessions. No adjustments are necessary for those costs which are normally paid by sellers as a result of tradition or law in a market area; these costs are readily identifiable since the seller pays these costs in virtually all sales transactions. Special or creative financing adjustments can be made to the comparable property by comparisons to financing terms offered by a third party institutional lender that is not already involved in the property or transaction. Any adjustment should not be calculated on a mechanical dollar for dollar cost of the financing or concession but the dollar amount of any adjustment should approximate the market's reaction to the financing or concessions based on the appraiser's judgment.

STATEMENT OF ASSUMPTIONS AND LIMITING CONDITIONS: The appraiser's certification in this report is subject to the following assumptions and limiting conditions:

1. The appraiser will not be responsible for matters of a legal nature that affect either the property being appraised or the title to it, except for information that he or she became aware of during the research involved in performing this appraisal. The appraiser assumes that the title is good and marketable and will not render any opinions about the title.
2. The appraiser has provided a sketch in this appraisal report to show the approximate dimensions of the improvements. The sketch is included only to assist the reader in visualizing the property and understanding the appraiser's determination of its size.
3. The appraiser has examined the available flood maps that are provided by the Federal Emergency Management Agency (or other data sources) and has noted in this appraisal report whether any portion of the subject site is located in an identified Special Flood Hazard Area. Because the appraiser is not a surveyor, he or she makes no guarantees, express or implied, regarding this determination.
4. The appraiser will not give testimony or appear in court because he or she made an appraisal of the property in question, unless specific arrangements to do so have been made beforehand, or as otherwise required by law.
5. The appraiser has noted in this appraisal report any adverse conditions (such as needed repairs, deterioration, the presence of hazardous wastes, toxic substances, etc.) observed during the inspection of the subject property or that he or she became aware of during the research involved in performing the appraisal. Unless otherwise stated in this appraisal report, the appraiser has no knowledge of any hidden or unapparent physical deficiencies or adverse conditions of the property (such as, but not limited to, needed repairs, deterioration, the presence of hazardous wastes, toxic substances, adverse environmental conditions, etc.) that would make the property less valuable, and has assumed that there are no such conditions and makes no guarantees or warranties, express or implied. The appraiser will not be responsible for any such conditions that do exist or for any engineering or testing that might be required to discover whether such conditions exist. Because the appraiser is not an expert in the field of environmental hazards, this appraisal report must not be considered as an environmental assessment of the property.
6. The appraiser has based his or her appraisal report and valuation conclusion for an appraisal that is subject to satisfactory completion, repairs, or alterations on the assumption that the completion, repairs, or alterations of the subject property will be performed in a professional manner.

Uniform Residential Appraisal Report

File #

APPRAISER'S CERTIFICATION: The Appraiser certifies and agrees that:

1. I have, at a minimum, developed and reported this appraisal in accordance with the scope of work requirements stated in this appraisal report.
2. I performed a complete visual inspection of the interior and exterior areas of the subject property. I reported the condition of the improvements in factual, specific terms. I identified and reported the physical deficiencies that could affect the livability, soundness, or structural integrity of the property.
3. I performed this appraisal in accordance with the requirements of the Uniform Standards of Professional Appraisal Practice that were adopted and promulgated by the Appraisal Standards Board of The Appraisal Foundation and that were in place at the time this appraisal report was prepared.
4. I developed my opinion of the market value of the real property that is the subject of this report based on the sales comparison approach to value. I have adequate comparable market data to develop a reliable sales comparison approach for this appraisal assignment. I further certify that I considered the cost and income approaches to value but did not develop them, unless otherwise indicated in this report.
5. I researched, verified, analyzed, and reported on any current agreement for sale for the subject property, any offering for sale of the subject property in the twelve months prior to the effective date of this appraisal, and the prior sales of the subject property for a minimum of three years prior to the effective date of this appraisal, unless otherwise indicated in this report.
6. I researched, verified, analyzed, and reported on the prior sales of the comparable sales for a minimum of one year prior to the date of sale of the comparable sale, unless otherwise indicated in this report.
7. I selected and used comparable sales that are locationally, physically, and functionally the most similar to the subject property.
8. I have not used comparable sales that were the result of combining a land sale with the contract purchase price of a home that has been built or will be built on the land.
9. I have reported adjustments to the comparable sales that reflect the market's reaction to the differences between the subject property and the comparable sales.
10. I verified, from a disinterested source, all information in this report that was provided by parties who have a financial interest in the sale or financing of the subject property.
11. I have knowledge and experience in appraising this type of property in this market area.
12. I am aware of, and have access to, the necessary and appropriate public and private data sources, such as multiple listing services, tax assessment records, public land records and other such data sources for the area in which the property is located.
13. I obtained the information, estimates, and opinions furnished by other parties and expressed in this appraisal report from reliable sources that I believe to be true and correct.
14. I have taken into consideration the factors that have an impact on value with respect to the subject neighborhood, subject property, and the proximity of the subject property to adverse influences in the development of my opinion of market value. I have noted in this appraisal report any adverse conditions (such as, but not limited to, needed repairs, deterioration, the presence of hazardous wastes, toxic substances, adverse environmental conditions, etc.) observed during the inspection of the subject property or that I became aware of during the research involved in performing this appraisal. I have considered these adverse conditions in my analysis of the property value, and have reported on the effect of the conditions on the value and marketability of the subject property.
15. I have not knowingly withheld any significant information from this appraisal report and, to the best of my knowledge, all statements and information in this appraisal report are true and correct.
16. I stated in this appraisal report my own personal, unbiased, and professional analysis, opinions, and conclusions, which are subject only to the assumptions and limiting conditions in this appraisal report.
17. I have no present or prospective interest in the property that is the subject of this report, and I have no present or prospective personal interest or bias with respect to the participants in the transaction. I did not base, either partially or completely, my analysis and/or opinion of market value in this appraisal report on the race, color, religion, sex, age, marital status, handicap, familial status, or national origin of either the prospective owners or occupants of the subject property or of the present owners or occupants of the properties in the vicinity of the subject property or on any other basis prohibited by law.
18. My employment and/or compensation for performing this appraisal or any future or anticipated appraisals was not conditioned on any agreement or understanding, written or otherwise, that I would report (or present analysis supporting) a predetermined specific value, a predetermined minimum value, a range or direction in value, a value that favors the cause of any party, or the attainment of a specific result or occurrence of a specific subsequent event (such as approval of a pending mortgage loan application).
19. I personally prepared all conclusions and opinions about the real estate that were set forth in this appraisal report. If I relied on significant real property appraisal assistance from any individual or individuals in the performance of this appraisal or the preparation of this appraisal report, I have named such individual(s) and disclosed the specific tasks performed in this appraisal report. I certify that any individual so named is qualified to perform the tasks. I have not authorized anyone to make a change to any item in this appraisal report; therefore, any change made to this appraisal is unauthorized and I will take no responsibility for it.
20. I identified the lender/client in this appraisal report who is the individual, organization, or agent for the organization that ordered and will receive this appraisal report.

Uniform Residential Appraisal Report

21. The lender/client may disclose or distribute this appraisal report to: the borrower; another lender at the request of the borrower; the mortgagee or its successors and assigns; mortgage insurers; government sponsored enterprises; other secondary market participants; data collection or reporting services; professional appraisal organizations; any department, agency, or instrumentality of the United States; and any state, the District of Columbia, or other jurisdictions; without having to obtain the appraiser's or supervisory appraiser's (if applicable) consent. Such consent must be obtained before this appraisal report may be disclosed or distributed to any other party (including, but not limited to, the public through advertising, public relations, news, sales, or other media).

22. I am aware that any disclosure or distribution of this appraisal report by me or the lender/client may be subject to certain laws and regulations. Further, I am also subject to the provisions of the Uniform Standards of Professional Appraisal Practice that pertain to disclosure or distribution by me.

23. The borrower, another lender at the request of the borrower, the mortgagee or its successors and assigns, mortgage insurers, government sponsored enterprises, and other secondary market participants may rely on this appraisal report as part of any mortgage finance transaction that involves any one or more of these parties.

24. If this appraisal report was transmitted as an "electronic record" containing my "electronic signature," as those terms are defined in applicable federal and/or state laws (excluding audio and video recordings), or a facsimile transmission of this appraisal report containing a copy or representation of my signature, the appraisal report shall be as effective, enforceable and valid as if a paper version of this appraisal report were delivered containing my original hand written signature.

25. Any intentional or negligent misrepresentation(s) contained in this appraisal report may result in civil liability and/or criminal penalties including, but not limited to, fine or imprisonment or both under the provisions of Title 18, United States Code, Section 1001, et seq., or similar state laws.

SUPERVISORY APPRAISER'S CERTIFICATION: The Supervisory Appraiser certifies and agrees that:

1. I directly supervised the appraiser for this appraisal assignment, have read the appraisal report, and agree with the appraiser's analysis, opinions, statements, conclusions, and the appraiser's certification.
2. I accept full responsibility for the contents of this appraisal report including, but not limited to, the appraiser's analysis, opinions, statements, conclusions, and the appraiser's certification.
3. The appraiser identified in this appraisal report is either a sub-contractor or an employee of the supervisory appraiser (or the appraisal firm), is qualified to perform this appraisal, and is acceptable to perform this appraisal under the applicable state law.
4. This appraisal report complies with the Uniform Standards of Professional Appraisal Practice that were adopted and promulgated by the Appraisal Standards Board of The Appraisal Foundation and that were in place at the time this appraisal report was prepared.
5. If this appraisal report was transmitted as an "electronic record" containing my "electronic signature," as those terms are defined in applicable federal and/or state laws (excluding audio and video recordings), or a facsimile transmission of this appraisal report containing a copy or representation of my signature, the appraisal report shall be as effective, enforceable and valid as if a paper version of this appraisal report were delivered containing my original hand written signature.

APPRAISAL AND REPORT IDENTIFICATION

This Report is one of the following types:

- ☒ Appraisal Report (A written report prepared under Standards Rule 2-2(a), pursuant to the Scope of Work, as disclosed elsewhere in this report.)
- ☐ Restricted Appraisal Report (A written report prepared under Standards Rule 2-2(b), pursuant to the Scope of Work, as disclosed elsewhere in this report, restricted to the stated intended use by the specified client or intended user.)

Comments on Standards Rule 2-3

I certify that, to the best of my knowledge and belief:

- The statements of fact contained in this report are true and correct.
- The reported analyses, opinions, and conclusions are limited only by the reported assumptions and limiting conditions and are my personal, impartial, and unbiased professional analyses, opinions, and conclusions.
- Unless otherwise indicated, I have no present or prospective interest in the property that is the subject of this report and no personal interest with respect to the parties involved.
- Unless otherwise indicated, I have performed no services, as an appraiser or in any other capacity, regarding the property that is the subject of this report within the three-year period immediately preceding acceptance of this assignment.
- I have no bias with respect to the property that is the subject of this report or the parties involved with this assignment.
- My engagement in this assignment was not contingent upon developing or reporting predetermined results.
- My compensation for completing this assignment is not contingent upon the development or reporting of a predetermined value or direction in value that favors the cause of the client, the amount of the value opinion, the attainment of a stipulated result, or the occurrence of a subsequent event directly related to the intended use of this appraisal.
- My analyses, opinions, and conclusions were developed, and this report has been prepared, in conformity with the Uniform Standards of Professional Appraisal Practice that were in effect at the time this report was prepared.
- Unless otherwise indicated, I have made a personal inspection of the property that is the subject of this report.
- Unless otherwise indicated, no one provided significant real property appraisal assistance to the person(s) signing this certification (if there are exceptions, the name of each individual providing significant real property appraisal assistance is stated elsewhere in this report).

Comments on Appraisal and Report Identification

Note any USPAP related issues requiring disclosure and any State mandated requirements:

My analyses, opinions and conclusions were developed, and this report was developed, and this report has been prepared, in conformity with the Code of Professional Ethics and the Standards of Professional Appraisal Practice of the Appraisal Institute. The use of this report is subject to the requirements of the Appraisal Institute relating to review by its duly authorized representatives. The cost approach and income approaches were not performed; however, it is not anticipated that these omissions will cause a change in estimated value.

The appraiser certifies and agrees that this appraisal report was prepared in accordance with the requirements of Title XI of the Financial Institutions, Reform, Recovery, and Enforcement Act (FIRREA) of 1989, as amended (12 U.S.C. 3331 et seq.), and any applicable implementing regulation in effect at the time the appraiser signs the appraisal certification.

FIRREA / USPAP ADDENDUM

Borrower	Moore, Ben & Ghazal		
Property Address	1502 Linden Hurst Ave		
City	Mc Lean	County	Fairfax
		State	VA
		Zip Code	22101
Lender/Client	Moore, Ben & Ghazal		
Purpose			
The purpose of the appraisal is to estimate the fair market value of the subject property.			
Scope			
The scope of the appraisal is to estimate the market value of the subject by: 1) Physical inspection of the subject property 2) An inspection of the subject neighborhood and analysis of regional characteristics 3) Collect market information needed to apply the traditional approaches to value, where applicable 4) Consider highest and best use of the subject site as though vacant and as improved 5) Extensive research of sold properties and current listings from the Multiple Listing Service and government sources 6) Analysis of selected comparable sales and competitive listings, including verification of the reported data and confirmation from a second data source where possible; 7) Consideration and application of the applicable approaches to value; 8) Final reconciliation 9) Prepare a summary appraisal report setting forth the conclusions derived in this analysis. Note: The appraiser is not qualified to determine the presence of mold or risk to inhabitants or property. The appraiser is not a home or environmental inspector and does not guarantee that the property is free of defects. Professional home inspection is recommended.			
Intended Use / Intended User			
The intended use of the appraisal is to assist the client in evaluating the subject property for a federally related transaction. There are no intended users of this appraisal report other than the client, cited above. All electronic signatures on this report have a security feature maintained by passwords for each appraiser. No person but the original signatories can alter this report. This practice and the use of electronic signature/transmission is acceptable to Fannie Mae and Freddie Mac.			
History of Property			
Current listing information:	There is no known listing history for the subject property during the past year as per MLS.		
Prior sale:	There has been no known prior sale of the subject during the past three years according to the MLS Fairfax County Tax Assessment Office records.		
Exposure Time / Marketing Time			
A reasonable estimate of marketing/exposure time for the subject property is based on actual days on market of similar competitive properties within the market area including the sales comparables used in this appraisal report. The marketing/exposure time of similar properties has generally been less than 60 days, plus or minus.			
Personal (non-realty) Transfers			
Personal property items which are present at the subject property (refrigerator, washer & dryer, and window treatments) are not part of the subject of this report. Their existence within the subject property/inclusion in the contract of sale for the subject property does not significantly affect the subject's value, as these items are typically conveyed in sales transactions as part of seller concessions. No part of the appraiser's market value for the subject property is attributable to personal property.			
Additional Comments			
Differences in the gross living area (GLA) square footage between the report and sketch are due to rounding or using the area reported in the tax records. Where there is a small difference between the GLA of the subject as measured by the appraiser and the tax records or builder specifications, we generally use the county or builder's GLA since it is consistent with the method of ascertaining the GLA of the comparables. The GLA of the comparables is attained from the tax records, and subjected to the appraiser's test of reasonableness. Appraiser may use some MLS photographs for comparables when they more accurately depict the property at the time of sale, the comparable property was not visible enough from the road to obtain a good photograph, is obstructed by foliage or other objects, is located within a gated community or sited on a private or busy road, or if the appraiser had conducted a prior appraisal inspection or curb inspection of the comparable and is familiar with the property. The appraisal is not a home inspection report and should not be relied upon to report the condition of the property being appraised. The appraiser is not a home or environmental inspector. The appraiser provides an opinion of value. The appraisal does not guarantee the property is free of defects or environmental problems. I (we) are not qualified to determine the presence or cause of mold, or the type of mold or whether the mold might pose any risk to the property or its inhabitants. A professional home inspection or environmental inspection by others is recommended. It is presumed that any and all construction/improvements and/or upgrades will or have been done with the appropriate permits and building inspections required by the County of Fairfax. No liability accepted by the appraiser if conditions have not been met.			
My analyses, opinions and conclusions were developed, and this report was developed, and this report has been prepared, in conformity with the Code of Professional Ethics and the Standards of Professional Appraisal Practice of the Appraisal Institute. The use of this report is subject to the requirements of the Appraisal Institute relating to review by its duly authorized representatives.			
I have performed no services, as an appraiser or in any other capacity, regarding the property that is the subject of this report within the three-year period immediately preceding acceptance of this assignment.			
Certification Supplement			
1. This appraisal assignment was not based on a requested minimum valuation, a specific valuation, or an approval of a loan.			
2. My compensation is not contingent upon the reporting of a predetermined value or direction in value that favors the cause of the client, the amount of the value estimate, the attainment of a stipulated result or the occurrence of a subsequent event.			
See Certification and Statement of Contingent and Limiting Conditions, FIRREA addendum and Appraiser's Certification of Value, which are included in this appraisal report. The date below represents the date of the appraisal report.

UNIFORM APPRAISAL DATASET (UAD) DEFINITIONS ADDENDUM

(Source: Fannie Mae UAD Appendix D: UAD Field-Specific Standardization Requirements)

Condition Ratings and Definitions

C1

The improvements have been recently constructed and have not been previously occupied. The entire structure and all components are new and the dwelling features no physical depreciation.

Note: Newly constructed improvements that feature recycled or previously used materials and/or components can be considered new dwellings provided that the dwelling is placed on a 100 percent new foundation and the recycled materials and the recycled components have been rehabilitated/remanufactured into like-new condition. Improvements that have not been previously occupied are not considered "new" if they have any significant physical depreciation (that is, newly constructed dwellings that have been vacant for an extended period of time without adequate maintenance or upkeep).

C2

The improvements feature no deferred maintenance, little or no physical depreciation, and require no repairs. Virtually all building components are new or have been recently repaired, refinished, or rehabilitated. All outdated components and finishes have been updated and/or replaced with components that meet current standards. Dwellings in this category are either almost new or have been recently completely renovated and are similar in condition to new construction.

Note: The improvements represent a relatively new property that is well maintained with no deferred maintenance and little or no physical depreciation, or an older property that has been recently completely renovated.

C3

The improvements are well maintained and feature limited physical depreciation due to normal wear and tear. Some components, but not every major building component, may be updated or recently rehabilitated. The structure has been well maintained.

Note: The improvement is in its first-cycle of replacing short-lived building components (appliances, floor coverings, HVAC, etc.) and is being well maintained. Its estimated effective age is less than its actual age. It also may reflect a property in which the majority of short-lived building components have been replaced but not to the level of a complete renovation.

C4

The improvements feature some minor deferred maintenance and physical deterioration due to normal wear and tear. The dwelling has been adequately maintained and requires only minimal repairs to building components/mechanical systems and cosmetic repairs. All major building components have been adequately maintained and are functionally adequate.

Note: The estimated effective age may be close to or equal to its actual age. It reflects a property in which some of the short-lived building components have been replaced, and some short-lived building components are at or near the end of their physical life expectancy; however, they still function adequately. Most minor repairs have been addressed on an ongoing basis resulting in an adequately maintained property.

C5

The improvements feature obvious deferred maintenance and are in need of some significant repairs. Some building components need repairs, rehabilitation, or updating. The functional utility and overall livability is somewhat diminished due to condition, but the dwelling remains useable and functional as a residence.

Note: Some significant repairs are needed to the improvements due to the lack of adequate maintenance. It reflects a property in which many of its short-lived building components are at the end of or have exceeded their physical life expectancy but remain functional.

C6

The improvements have substantial damage or deferred maintenance with deficiencies or defects that are severe enough to affect the safety, soundness, or structural integrity of the improvements. The improvements are in need of substantial repairs and rehabilitation, including many or most major components.

Note: Substantial repairs are needed to the improvements due to the lack of adequate maintenance or property damage. It reflects a property with conditions severe enough to affect the safety, soundness, or structural integrity of the improvements.

Quality Ratings and Definitions

Q1

Dwellings with this quality rating are usually unique structures that are individually designed by an architect for a specified user. Such residences typically are constructed from detailed architectural plans and specifications and feature an exceptionally high level of workmanship and exceptionally high-grade materials throughout the interior and exterior of the structure. The design features exceptionally high-quality exterior refinements and ornamentation, and exceptionally high-quality interior refinements. The workmanship, materials, and finishes throughout the dwelling are of exceptionally high quality.

Q2

Dwellings with this quality rating are often custom designed for construction on an individual property owner's site. However, dwellings in this quality grade are also found in high-quality tract developments featuring residence constructed from individual plans or from highly modified or upgraded plans. The design features detailed, high quality exterior ornamentation, high-quality interior refinements, and detail. The workmanship, materials, and finishes throughout the dwelling are generally of high or very high quality.

UNIFORM APPRAISAL DATASET (UAD) DEFINITIONS ADDENDUM

(Source: Fannie Mae UAD Appendix D: UAD Field-Specific Standardization Requirements)

Quality Ratings and Definitions (continued)

Q3

Dwellings with this quality rating are residences of higher quality built from individual or readily available designer plans in above-standard residential tract developments or on an individual property owner's site. The design includes significant exterior ornamentation and interiors that are well finished. The workmanship exceeds acceptable standards and many materials and finishes throughout the dwelling have been upgraded from "stock" standards.

Q4

Dwellings with this quality rating meet or exceed the requirements of applicable building codes. Standard or modified standard building plans are utilized and the design includes adequate fenestration and some exterior ornamentation and interior refinements. Materials, workmanship, finish, and equipment are of stock or builder grade and may feature some upgrades.

Q5

Dwellings with this quality rating feature economy of construction and basic functionality as main considerations. Such dwellings feature a plain design using readily available or basic floor plans featuring minimal fenestration and basic finishes with minimal exterior ornamentation and limited interior detail. These dwellings meet minimum building codes and are constructed with inexpensive, stock materials with limited refinements and upgrades.

Q6

Dwellings with this quality rating are of basic quality and lower cost; some may not be suitable for year-round occupancy. Such dwellings are often built with simple plans or without plans, often utilizing the lowest quality building materials. Such dwellings are often built or expanded by persons who are professionally unskilled or possess only minimal construction skills. Electrical, plumbing, and other mechanical systems and equipment may be minimal or non-existent. Older dwellings may feature one or more substandard or non-conforming additions to the original structure.

Definitions of Not Updated, Updated, and Remodeled

Not Updated

Little or no updating or modernization. This description includes, but is not limited to, new homes.

Residential properties of fifteen years of age or less often reflect an original condition with no updating, if no major components have been replaced or updated. Those over fifteen years of age are also considered not updated if the appliances, fixtures, and finishes are predominantly dated. An area that is 'Not Updated' may still be well maintained and fully functional, and this rating does not necessarily imply deferred maintenance or physical/functional deterioration.

Updated

The area of the home has been modified to meet current market expectations. These modifications are limited in terms of both scope and cost.

An updated area of the home should have an improved look and feel, or functional utility. Changes that constitute updates include refurbishment and/or replacing components to meet existing market expectations. Updates do not include significant alterations to the existing structure.

Remodeled

Significant finish and/or structural changes have been made that increase utility and appeal through complete replacement and/or expansion.

A remodeled area reflects fundamental changes that include multiple alterations. These alterations may include some or all of the following: replacement of a major component (cabinet(s), bathtub, or bathroom tile), relocation of plumbing/gas fixtures/appliances, significant structural alterations (relocating walls, and/or the addition of) square footage). This would include a complete gutting and rebuild.

Explanation of Bathroom Count

Three-quarter baths are counted as a full bath in all cases. Quarter baths (baths that feature only a toilet) are not included in the bathroom count. The number of full and half baths is reported by separating the two values using a period, where the full bath count is represented to the left of the period and the half bath count is represented to the right of the period.

Example:

3.2 indicates three full baths and two half baths.
